Annex 10 – SERVICE LEVEL AGREEMENT (SLA)

1. Introduction

This Annex describes the Key Performance Indicators (KPIs) and the Service Level Agreement (SLA) that shall govern the delivery of the Services provided under this Offer.

2. Monitored Network and Service Performance KPIs

The list of KPIs that shall be monitored under the scope of this agreement and their relative definition, are presented at the below table:

KPI	Description
2G & 3G-Mobile Voice Service Accessibility (%)	Represents the probability that a subscriber has to access the 2G or 3G Wind Hellas Network for Voice Service without experiencing any problems, provided that the subscriber is in the network coverage area.
2G & 3G - Mobile Voice Service Call Retainability Rate (%)	Represents the probability that a subscriber has to retain a Mobile Voice Call when it is served by either the 2G or 3G Wind Hellas network.
Mobile Broadband Accessibility (%)	Represents the probability that a subscriber has to establish a Mobile broadband session (HSDPA call).
Mobile Broadband Session Retainability Rate (%)	Represents the probability that a Mobile Broadband Session (HSDPA call) will be retained in WIND HELLAS 3G network according to the desire of the subscriber.

3. Service Levels and KPIs Measurements

3.1 KPIs Measurement Process

The KPI definitions (i.e. information source, formula, measurement method) for the Network and Service Performance KPIs will be according to Wind Hellas current practice.

3.2 Service Levels

The Monthly Service Level Objectives along with the Minimum Monthly Acceptable Level on a Network level for each of the Monitored KPIs are presented at the below table:

KPI	Monthly Service Level Objective	Minimum Monthly Acceptable Service Level
2G & 3G-Mobile Voice Service Accessibility (%)	99,2%	98,7%
2G & 3G - Mobile Voice Service Call Retainability Rate (%)	98,8%	98,3%
3G - Mobile Broadband Accessibility (%)	99,0%	98,5%
3G - Mobile Broadband Session Retainability Rate (%)	99,4%	98,9%

The Minimum Monthly Acceptable Service Level is calculated according to the following formula:

$$\text{Minimum Monthly Acceptable Service Level} = \text{Monthly Service Level Objective} - 0.5\% \times \text{Monthly Service Level Objective}$$

Wind Hellas keeps the right to change the set of Monitored KPIs and the relative Service Level Objectives according to the new technology introduced, and the new experience gained from the monitoring of the quality of the offered services.

3.3 Exemption Events for Penalties related to Service Levels and KPIs

Wind Hellas shall be exempted and relieved from penalties and liabilities associated with SLAs and KPIs in case of the following Exemptions Events:

1. Force Majeure
2. Planned network down time, maintenance and/or engineering works.
3. National or regional power system outages.
4. Regulatory changes that may materially impede Wind Hellas ability of provisioning the Services or seriously impact network quality (i.e. frequency re-allocation)
5. Problems beyond Wind Hellas control, caused by :
 - Unforeseen circumstances such as riots, vandalism, destructions
 - Operator B responsibility (eg. such as excessive amount of traffic caused by specific roaming partner subscribers).
 - Non Wind Hellas or its authorized personnel actions
 - External interferences caused by other wireless systems or other sources than Wind Hellas Network

- Action or omission of action of an interconnected international carrier.

6. Problems caused by substantial traffic deviations from the traffic model used by Wind Hellas (i.e. actual traffic distributions overshoot or burst over 20% above the designed network capacity)
7. The Operator B has not provided accurate traffic forecasts (10% deviation)
8. The Operator B has not fulfilled its obligations as these are described in the present document (e.g. pending invoices that have been expired, bank guarantee not renewed etc)

Should an Exemption Event from 1 to 7 above occurs, Wind Hellas performance measurement data (i.e. KPI/SLA statistics data) that had been affected by the Exemption Event, for the period of the event(s), shall be excluded from the KPI calculation for the Purposes of the related penalty calculations related to the affected KPI(s).

For the avoidance of doubt, KPIs will be measured and reported by including both the full impact of the exemption events as well as without the impact of the exception events when such an event occurs.

3.4 Service Levels and KPIs Reporting

All KPIs shall be reported on a monthly basis. The report should be created and distributed to the Operator B by the 10th business day of the next month.

3.5 Compensation Fees

Penalties might be applied on a monthly basis, if the Monthly Value of one or more KPIs on a Network level drops below the corresponding Minimum Monthly Acceptable Service Level of the specific KPI(s).

The compensation fee shall be calculated as follows:

1. For every 1% below the Monthly Minimum Acceptable Level the compensation fee shall be 0.2% of the Monthly Fee.
2. In case that more than one of the KPIs Service Levels have been violated within the same month, the compensation fees for each KPI shall be calculated, and the Final applied compensation fee shall be the **maximum** between the individual KPIs compensation fees.
3. The Final Compensation Fee shall not supersede the 10% of the monthly fee of the month where the KPI violation has been occurred.

The compensation fee will be deducted by Wind Hellas from the invoice of the services corresponding to the month where the SLA violation occurred.

3.6 Other Terms

Additionally, both Parties confirm that their IR.21 documents are up-to-date, i.e. all technical and routing information and contact details for troubleshooting and escalation are correctly presented.

Both Parties agree that some of the test SIM cards can be used for active QoS monitoring purposes provided that the usage will be rational. Operator B keeps the right to bar without any prior notice specific cards that deemed to be used in an irrational way.
